

DOCTOR CHARGE 50 230V 6V/12V/24V

Overview

DOCTOR CHARGE 50 230V 6V/12V/24V

cod. 807598

Electronic BATTERY MANAGER for total maintenance of WET, GEL, AGM, MF, PbCa, EFB und Li batteries at 6/12/24V and for support activities when intervening on vehicles in workshops, repair shops and car dealer premises.

The innovative Power Stream technology guarantees better performance, up to 50% more than traditional battery chargers.

The Pulse Tronic technology guarantees optimal battery charging over 8 phases.

Doctor Charge 50 carries out 5 functions:

1. automatic charge and maintenance of batteries with PULSE TRONIC technology, even in difficult environmental conditions (low temperatures);
2. battery tests such as voltage at terminals, starting capacity (CCA) and operational check of the vehicle alternator;
3. recovery of sulphated or very discharged batteries, and recovery of optimal operation with periodic regeneration;
4. stable power supply source for battery changes (to protect the on-board electronics), for diagnostic activities (operation checks carried out on the vehicles), for keeping the batteries of display vehicles in showrooms operational;
5. vehicles start aid.

Based on the SMPS (Switch Mode Power Supply) Technology. In case of black-outs or repetitive uses Doctor Charge 50 can set itself at the last settings carried out, furthermore the cables can be calibrated according to their type (different lengths and/or sections).

Many protections available. Fit with PFC device.

1 PH 230V
